Intern Experience:

In the summer on 2001, I subcontracted to **NASA**, *Goddard Space Flight Center* as a **VSEP** (Visiting Students Enrichment Program) participate. At **NASA**, I wrote scripts for Beowulf Clusters, and other Super Computers clusters using C/C++ and OpenGL libraries. I was the system administration for my department.

At **Riverdale High School,** during my educational years there, I helped set up, configure, and run their network. I also maintained Student/Facility accounts, the web server and programming server, and consulted with facility if there were any issues.

Education:
2000 – 2003 Riverdale High School -
Murfreesboro, TN
High School Diploma

2007 – 2008 University of West Florida
Pensacola, FL
General Education (core)

2007 – 2008 Pensacola Junior College
Pensacola, FL
Psychology
